The National Collegiate Athletic Association is a membership-driven organization dedicated to safeguarding student-athlete well-being and equipping them with the skills to succeed on the playing field, in the classroom and throughout life.

We support learning through sports by integrating athletics and higher education to enrich the college experience of student-athletes and making college sports a pathway to opportunity. More than 1,100 NCAA members – mostly colleges and universities, but also conferences and affiliated groups – work together to create a framework of rules for fair and safe competition. Those rules are administered by NCAA national office staff, which also organizes national championships and provides other resources to support student-athletes and the schools they attend.

Our diverse membership includes schools with student bodies that range from hundreds of students to tens of thousands. The three-division structure creates a fair playing field for like-minded schools and provides student-athletes with a wide spectrum of opportunities to participate in 90 championship events.

College and university presidents and chancellors guide each division, supported by an extensive committee structure guided by athletics administrators, faculty and student-athlete representatives. Each division creates its own rules that follow the overarching principles of the NCAA.

NCAA, NCAA logo and National Collegiate Athletic Association are registered marks of the Association and use in any manner is prohibited unless prior approval is obtained from the Association.

INTRODUCTION

Authority

As set forth in the NCAA Divisions I and II Bylaws, the NCAA Eligibility Center is responsible for certifying the academic and amateurism initial-eligibility of all incoming prospective student-athletes. Specifically, Division I Bylaws 14.1.2.5 and 14.3.5.4 and Division II Bylaws 14.1.2.4 and 14.3.2.4 establish the authority for the Eligibility Center to administer the academic requirements for prospective student-athletes who have an international education component in their academic certification.

In addition, Division I Bylaw 21.6.3.1 empowers the International Student Records Committee (ISRC) to assist in reviewing initial-eligibility standards for international students. The committee is comprised of international academic experts from NCAA member institutions representing both Divisions I and II schools. The current NCAA International Student Records Committee members are as follows:

- Amy King, University of California, Los Angeles, chair.
- Meghan Miller, Sacred Heart University, vice chair.
- Elvin A. Browne, King University.
- Brittany E. Henson, Palm Beach Atlantic University.
- Ruth Lopez, University of North Florida.
- Greg Gilbert, University of Findlay.

The ISRC provides knowledge and expertise regarding international educational systems to establish supplemental initial-eligibility policies and procedures, as stated in this Guide to International Academic Standards for Athletics Eligibility, which complement the NCAA Divisions I and II bylaws. Only the Eligibility Center international academic certification staff has authority to determine crediting and academic timelines. As part of this process, staff may review professional resources (e.g., NARIC), published information from the appropriate issuing body or government (e.g., ministry of education), and/or other information on a case-by-case basis. If information is deemed to be inconclusive or unavailable, staff will not make a determination.

Reconsideration

An institution may request reconsideration of a previous decision (staff or committee) based on new and relevant information. The staff has discretion to determine whether the institution's submission meets the threshold. If so, staff will re-open the review and render a reconsideration decision; however, if not, staff will deny the reconsideration request.

- If you are interested in NCAA Division III, please visit [NCAA.org/d3](https://www.ncaa.org/d3) or contact the athletics office at a Division III campus for its initial-eligibility standards.

Academic Certification Process

Registration

College-bound student-athletes preparing to enroll in a Division I or II school must [register with the NCAA Eligibility Center](#) to ensure they have met amateurism standards and are academically prepared for college coursework. Please direct all interested prospective student-athletes (PSAs) to eligibilitycenter.org for registration.

Official Document Requirements

Academic documents are required to assess the NCAA initial eligibility of a prospective student-athlete. If a prospective student-athlete is attending school in a country where English is not considered a native language, all official documents must be submitted in the native language. A certified line-by-line English translation of all official documents will also be required to accompany all native language documents requested.

The following documents are required to assess the NCAA initial eligibility of each prospective student-athlete:

- Transcripts for the ninth year of schooling and up.
- Acceptable proof of graduation, as defined in the country-specific entries of this resource.

The following documents may be requested to assess the NCAA initial eligibility of each prospective student-athlete:

- Transcript for year eight.
- Graduation certificate/diploma.
- Grading scale(s) with minimum passing grade from each school attended for the ninth year of schooling and up.
- Course completion dates on any documents requested.

For a list of country-specific documents that *may* be requested in addition to those indicated above, please see the [country-specific entry](#) in this document.

English Translation Requirements

Complete, literal word-for-word, line-by-line certified English translations for all documents in the same format as the original documents are required. The information below further explains these requirements:

- English translations must be provided by a person not related to or associated with the student or the athletics department at the institution the college-bound student-athlete plans to attend.
- The English translator must provide a letter, including any appropriate stamps or seals, explaining his or her qualifications as a translator.

- The English translator must provide full name, mailing address, telephone number, email address or any other means by which the authenticity of the translation can be verified.
- It is recommended that English translations be performed by a college or university instructor of the language or a professionally certified English translator.
- English translations must accompany the original documents written in the native language.
- English translations not in accordance with the above specifications will not be accepted.

Where to Send Student Records:

The following options are available for submitting academic records for international students. Before submitting any documents/transcripts, please ensure the student's name and NCAA ID number are indicated clearly on each submitted item. Please note: The NCAA cannot return submitted documents.

Direct upload to student's NCAA Eligibility Center account (available only to NCAA member universities and colleges).

- Best practice; information is immediately attached to student's account upon upload.

Email: ec-processing@ncaa.org (Available only to international high schools, ministry offices and issuing bodies; translation services are not included and may not be emailed directly.) Please ensure the student's name and NCAA ID number are included in the email's subject line.

- *Note:* Certified documents must be emailed from a school or official email address. Emails submitted from general email providers, such as Gmail, Yahoo, Hotmail, etc., cannot be accepted.
- Any emailed documents must be submitted as .pdf attachments (not password protected) to avoid processing delays or unaccepted documents.
- Please allow two days for processing from date of email receipt.

Mail: Please allow up to five days for processing from date of mail receipt.

Helpful Information

Note: The country entries found in this resource are intended to provide country-specific information only. Each entry includes the information typical for that country; however, all educational paths can differ within each country and are subject to change. The information below should be considered supplemental to the policies and procedures used to complete an academic certification.

Please contact the NCAA Eligibility Center with any questions regarding a specific prospective student-athletes and their individual educational paths.

- For all rules pertaining to NCAA Divisions I and II academic initial-eligibility requirements (including, but not limited to, time limitations for core course completion; what type of courses are eligible for use in an academic certification; and the overall academic requirements for both Divisions I and II), please **see *NCAA Divisions I and II manuals (Bylaw 14.3.)***.
- Effective April 2016, all students (including international students) are eligible for the Early Academic Qualifier Exception (see Bylaw 14.3.1.1.2).
- Due to the nature of education systems around the world, it is possible for a prospective student-athlete to study in an educational system that is not reflected in the country entry in this guide.

For example, a school in Venezuela may be a French school offering a French Diploma. The country entry of France should be referenced when reviewing documents from this school, rather than the country entry for Venezuela. The most common occurrence of this would be earning a General Certificate of Education (GCE), General Certificate of Secondary Education (GCSE) or International General Certificate of Secondary Education (IGCSE) in almost any country. Generally, the information in the United Kingdom (England and Wales) country entry would apply to these documents.

- For students who initially enroll in year/grade nine on one academic calendar and move to a school on a different academic calendar, the student's core curriculum time limitation will remain on the academic calendar the student began year nine. For example, a student begins year nine in Australia (which runs on a February-December academic calendar) but completes schooling in the U.S. (which is on a September-June academic calendar). The students' core-curriculum time limitation would remain on the Australian academic calendar.
- Eighth grade coursework completed in a 10-year or 11-year educational system can be used for initial-eligibility certification if the coursework meets the NCAA definition of a core course. This course information must be submitted to the Eligibility Center for review to determine if the course meets the definition of a NCAA core course. Eighth-grade coursework taken in a system that is 12 years or greater will not be considered in an academic certification.
- Students who have attended school in the following United States territories will be treated as domestic students for NCAA initial-eligibility purposes: American Samoa, Guam, Puerto Rico and the U.S. Virgin Islands.
- Students enrolled in schools abroad that are under U.S. sponsorship and offer the standard U.S. curriculum, including those that serve both U.S. and non-U.S. citizens, will be certified as domestic students (e.g., American schools overseas, Department of Defense Dependents Schools (DODDS)) for NCAA academic initial-eligibility purposes.
- Unpublicized changes in state or national grading scales may occur after publication of the most recent edition of the NCAA's *International Guide*. In addition, you may receive academic credentials not included in this *International Guide*. Member institutions are advised to send any differing academic credentials or grading scales to the Eligibility Center.
- When a particular document or grading scale is no longer in use by an international educational system, the document or grading scale will be removed from the *International Guide* five years after the discontinuation of the document or grading scale.
- When specific core-course credits are not indicated on a transcript, the Eligibility Center will credit based on the Carnegie unit system (weeks of attendance multiplied by hours of study per week) and provide one (1.0) credit per year in each of the following courses: English, native language and mathematics; with a half-credit per year in the following courses: physical and natural science, social science and additional core courses.

Educational Tracks

Students who select or are enrolled in a professional/technical/vocational track of studies may not be required (per the requirements of the selected track) to study specific subject(s) such as social studies, natural/physical sciences or mathematics. They also may have a limited number of courses that meet the NCAA's definition of four-year college preparatory courses. This fact does not excuse the student-athlete from meeting NCAA initial-eligibility requirements.

Test Score Information

NCAA Division I:

Division I uses a sliding scale to match SAT/ACT scores and core-course grade-point averages to determine eligibility. The [sliding scale](#) balances your test score with your GPA. If you have a low test score, you need a higher GPA to be eligible. If you have a low GPA, you need a higher test score to be eligible.

NCAA Division II:

If you enroll full-time at a Division II school *after Aug. 1, 2018*, you must meet all academic requirements and earn an SAT or ACT score matching your core-course GPA on the Division II sliding scale to be eligible to compete. The [sliding scale](#) balances your test score with your GPA. If you have a low test score, you need a higher GPA to be eligible. If you have a low GPA, you need a higher test score to be eligible.

Other Test Information

- When registering for either test, prospective student-athletes should use the code 9999 to send their scores directly to the NCAA.
- All qualifying SAT and ACT tests must be taken in English.
- The Test of Standard Written English (TSWE) and the Test of English as a Foreign Language (TOEFL) cannot be used as a substitute for the SAT or ACT.
- If a student took the SAT before March 2016 and then took the redesigned SAT at a later date, the NCAA Eligibility Center will not combine scores from the old and redesigned SAT when assessing the student's initial eligibility. The NCAA Eligibility Center will only combine section scores from the same version of the test. Because the redesigned SAT varies in design and measures different academic concepts than the old SAT (before March 2016), a numerical score on the old test may not be equivalent to the same numerical score on the redesigned test.

Acceptable Forms of Proof of High School Graduation:

1. Bermuda School Certificate (BSC)/Bermuda School Diploma (BSD)

Expected Timeline of Completion	13 years (five years or 10 semesters from the initial start of year nine)
--	---

The following section is divided into three “tiers.” All tiers are acceptable forms of proof of graduation. Each tier has a separate expected timeline for completion. Each tier builds upon the previous tier. Pursuing the Bermuda School Certificate is a separate path of study than the following tiers.

Tier One

1. General Certificate of Secondary Education (GCSE) or International General Certificate of Secondary Education (IGCSE) (must pass **five** or more (I)GCSE examinations in separate subjects to qualify as an acceptable form of proof of high school graduation)

Expected Timeline of Completion	11 years (three years or six semesters from the initial start of year nine)

Expected Timeline of Completion	12 years (four years or eight semesters from the initial start of year nine)
Issuing Body	Various exam boards
First Available Date of Issue (typical)	August

Tier Three

The expected timeline for completion of all Tier Three forms of proof of acceptable high school graduation is upon successful on-time completion of year 13. Earning a Tier Three form proof of high school graduation will advance the expected date of high school graduation one year from the on-time expected timeline of a Tier Two document or two years beyond the on-time completion of a Tier One document.

1. General Certificate of Education, Advanced Level (GCE A-level) examinations (must pass **two** or more A-level examinations in separate subjects to qualify as an acceptable form of proof of high school graduation)

Expected Timeline of Completion	13 years (five years or 10 semesters from the initial start of year nine)
Issuing Body	Various exam boards
First Available Date of Issue (typical)	August

2. International Advanced Level (A-level) examinations (must pass **two** or more A-level examinations in separate subjects to qualify as an acceptable form of proof of high school graduation)

Course Codes

The first two characters in the numerical course code for grades 10 through 12 states the subject studied (e.g., 06 indicates French). The third character in the numerical course code for grades 10 through 12 states the course level (e.g., 1, 2 and 3 designate secondary level courses. Number 4 usually indicates Advanced Placement courses). The fourth character indicates the credit value of the course. The fifth character indicates the type of course completed. These course codes, along with an approved course title can be considered in the academic certification process. Courses designated with a 6 or 7 will not be used in the certification process. The sixth character in the numerical course code is a digit between 0 and 9 distinguishing courses in a subject area having the same level, credit value and type.

NOT Acceptable Forms of Proof of High School Graduation:

1. Diplôme d'Études Secondaires/Enseignement Professionnel Court [secondary school short vocational education diploma grade 10; also known as the Certificat d'études Professionnelles (certificate of vocational studies since 1988)].
2. Diplôme d'Études Secondaires/Enseignement Professionnel Long [secondary school short vocational education diploma grade 11; also known as the Diplôme d'études Professionnelles (secondary diploma of vocational studies since 1988)].

Crediting Policies:

For Secondary 3, 4 and 5 coursework, unit values will be denoted in the last digit of the course code (e.g., Mathematiques 984306 would be awarded one full credit based on the last digit of the course code [6], which stands for six units, equaling one full credit).

Unit Credits for Secondary 3-5/Grades 9-11 will be awarded as follows:

DES Units of Credit	U.S. Equivalent Credits
6 Credits	1 Unit
4 Credits	0.75 Units
3 Credits	0.50 Units
2 Credits	0.34 Units
1 Credit	0.25 Units

Unit Credits for DEC/CEGEP will be awarded as follows:

DES Units of Credit	U.S. Equivalent Credits
2.25 Credits or more	1 Unit
2 Credits	0.75 Units
1.33-1.66 Credits	0.50 Units
1 Credit	0.34 Units

Unit credits for Pre-University Grade 12 will be awarded as follows:

Pre-University Grade 12 Units of Credit	U.S. Equivalent Credits
1 Credit	1 Unit

Grading Scale:

Grade	Numeric Grade	U.S. Grade Equivalent	Quality Points
A	80-100	A	4
B	70-79	B	3
C	60-69	C	2
F	0-59	F	0

Important Information:

The high school code for this Canadian province is listed below. Information regarding core course list, grading scale and crediting can be found on the NCAA's [High School Portal](#) when the provincial code is entered.

Province/Territory	Province Code
Quebec	998001

- Core courses awarded "ACC" will be awarded the lowest passing grade of 60 percent. Courses completed after September 1, 2019 that are awarded "ACC" will not be considered.
- If a student pursues the Diplome d'Études Collegiales (DEC) [diploma of collegial studies] from a College d' Enseignement Général et Professionnel (CEGEP) and passes 14 courses during the first regular academic year (fall and spring terms only), this allows the advancement of the expected date of high school graduation by one year. This does not allow the core curriculum time limitation to be advanced. This is only valid for students that graduate with the DES (tier one of graduation) in June 2018 or prior.
- Winter 2018 graduates and prior may still advance the expected date of high school graduation using the logic, as mentioned above.

Expected Timeline of Completion	12 years (eight consecutive semesters from the initial start of secondary 3)
Issuing Body	CEGEP School
First Available Date of Issue (typical)	June

Course Codes

The fourth digit in the course code on the Secondary 3-5 transcripts indicates the grade level at which the course was taken.

Graduation Timeline	
6 + 3 + 2 = 11 and an optional +2 = 13	<i>11 or 13 years total: six years primary, three years lower secondary and then two or four years of upper secondary</i>

Acceptable Forms of Proof of High School Graduation:

This section is divided into two “tiers.” All tiers are acceptable forms of proof of graduation. Each tier has a separate expected timeline for completion. Each tier builds upon the previous tier.

Tier One

1. Caribbean Examination Council (CXC) Secondary Education Certificate (CSEC) (must pass **five** or more examinations in separate subjects to qualify as an acceptable form of proof of high school graduation)

Expected Timeline of Completion	11 years (three years or six semesters from the initial start of year nine)
Issuing Body	Caribbean Examination Council (CXC)
First Available Date of Issue (typical)	August

2. General Certificate of Secondary Education (GCSE) (must pass **five** or more examinations in separate subjects to qualify as an acceptable form of proof of high school graduation)

Expected Timeline of Completion	11 years (three years or six semesters from the initial start of year nine)
Issuing Body	Various exam boards
First Available Date of Issue (typical)	August

3. General Certificate of Education (GCE) (must pass **five** or more examinations in separate subjects to qualify as an acceptable form of proof of high school graduation)

Expected Timeline of Completion	11 years (three years or six semesters from the initial start of year nine)
Issuing Body	Various exam boards
First Available Date of Issue (typical)	August

4. International General Certificate of Secondary Education (IGCSE) (must pass **five** or more examinations in separate subjects to qualify as an acceptable form of proof of high school graduation)

Expected Timeline of Completion	11 years (three years or six semesters from the initial start of year nine)
Issuing Body	Various exam boards
First Available Date of Issue (typical)	August

Tier Two

The expected timeline for completion of all Tier Two forms of proof of acceptable high school graduation is upon successful on time completion of year 13. Earning a Tier Two form of proof of high school graduation will advance the expected date of high school graduation two years from the on-time expected timeline of a Tier One document.

1. Caribbean Examination Council (CXC) Advanced Proficiency Examinations/Diploma (CAPE) (must pass **two** examinations in separate subjects to qualify as an acceptable form of proof of high school graduation)

Expected Timeline of Completion	13 years (five years or 10 semesters from the initial start of year nine)
Issuing Body	Caribbean Examination Council (CXC)
First Available Date of Issue (typical)	August

2. Advanced International Certificate of Education (AICE)

Important Information:

- The following are less commonly known course titles that are **approved** for use in an academic certification:
 - Classical Studies – approved as a “social science” core course.
- For upper secondary school transcripts that have four columns of grades titled as “1st term”, “2nd term”, “3rd term/end of year” and “exam/end of year test”:
 - 1st term = semester 1
 - 2nd term = semester 2
 - 3rd term/end of year = final yearly grade
 - The year listed at the top of this transcript corresponds with the start of the year.

Example: 1y (2014) = 2014-2015

Acceptable Forms of Proof of High School Graduation:

This section is divided into two “tiers.” All tiers are acceptable forms of proof of graduation. Each tier has a separate expected timeline for completion. Each tier builds upon the previous tier.

Tier One

- Caribbean Examination Council (CXC) Secondary Education Certificate (CSEC) (must pass **five** or more examinations in separate subjects to qualify as an acceptable form of proof of high school graduation)

Expected Timeline of Completion	11 years (three years or six semesters from the initial start of year nine)
Issuing Body	Caribbean Examination Council (CXC)
First Available Date of Issue (typical)	August

- General Certificate of Secondary Education (GCSE) (must pass **five** or more examinations in separate subjects to qualify as an acceptable form of proof of high school graduation)

Expected Timeline of Completion	11 years (three years or six semesters from the initial start of year nine)
Issuing Body	Various exam boards
First Available Date of Issue (typical)	August

- General Certificate of Education (GCE) (must pass **five** or more examinations in separate subjects to qualify as an acceptable form of proof of high school graduation)

Expected Timeline of Completion	11 years (three years or six semesters from the initial start of year nine)
Issuing Body	Various exam boards
First Available Date of Issue (typical)	August

- International General Certificate of Secondary Education (IGCSE) (must pass **five** or more examinations in separate subjects to qualify as an acceptable form of proof of high school graduation)

Expected Timeline of Completion	11 years (three years or six semesters from the initial start of year nine)
Issuing Body	Various exam boards
First Available Date of Issue (typical)	August

Tier Two

The expected timeline for completion of all Tier Two forms of proof of acceptable high school graduation is upon successful on time completion of year 13. Earning a Tier Two form of proof of high school graduation will advance the expected date of high school graduation two years from the on-time expected timeline of a Tier One document.

1. Caribbean Examination Council (CXC) Advanced Proficiency Examinations/Diploma (CAPE) (must pass **two** or more examinations in separate subjects to qualify as an acceptable form of proof of high school graduation

Expected Timeline of Completion	13 years (five years or 10 semesters from the initial start of year nine)

Important Information:

Most schools within Ethiopia operate on the Ethiopian calendar instead of the common Gregorian calendar that is typical in the U.S. There are many online tools available to convert the calendar dates. This may be required to identify accurate school years for the student.

- *Example:* Friday, October 4, 2009 (ሐምሌ ፩ ፳፻፱) on the Ethiopian calendar is Friday, October 14, 2009 on the Gregorian calendar.

Often students present British-patterned educational documents from this country (IGCSEs, AS- or A-levels, etc.). For information on how to assess the eligibility of students presenting these documents, please see the [United Kingdom country entry](#).

Important Information:

- For yearly transcripts, all grades reported per course per year must be averaged to determine the overall final grade awarded for the course. If a grade of an "S" is reported in combination with numeric grades, the "S" grade should be treated as the minimum passing grade on the grading scale. All final grades with decimal points will be rounded down to the nearest whole number.

Example 1: Math scores received are as follows: 6 7 9 6 8 7

All numbers added together total 43, divided by the six grades equals 7.1666. Rounded down to a seven, the final grade awarded for Math would be a "B" grade on the 10-point Scale.

Example 2: Math scores received are as follows: 6 7 9 **S** 8 7

All numbers added together total 42. This is because the "S" represents a "pass" and the minimum passing grade on the 10-point Scale is a five. The total (42) divided by the six grades equals seven. The final grade awarded for this Math would be a "B" grade.

Academic Calendar	<i>September-June</i>
What is year nine called?	<i>Form Three, Year Nine</i>
Where is year nine typically located?	<i>Final year of lower secondary school</i>
Native Language(s)	<i>English</i>
Graduation Timeline	
$6 + 3 + 2 = 11$ or $6 + 3 + 4 = 13$	<i>11 or 13 years total: six years primary, three years lower secondary and then two or four years of upper secondary</i>

Acceptable Forms of Proof of High School Graduation:

This section is divided into two “tiers.” All tiers are acceptable forms of proof of graduation. Each tier has a separate expected timeline for completion. Each tier builds upon the previous tier.

Tier One

1. Caribbean Examination Council (CXC) Secondary Education Certificate (CSEC) (must pass **five** or more examinations in separate subjects to qualify as an acceptable form of proof of high school graduation)

Expected Timeline of Completion	11 years (three years or six semesters from the initial start of year nine)
Issuing Body	Caribbean Examination Council (CXC)
First Available Date of Issue (typical)	August

2. General Certificate of Secondary Education (GCSE) (must pass **five** or more examinations separate subjects to qualify as an acceptable form of proof of high school graduation)

Expected Timeline of Completion	11 years (three years or six semesters from the initial start of year nine)
Issuing Body	Various exam boards
First Available Date of Issue (typical)	August

3. General Certificate of Education (GCE) (must pass **five** or more examinations in separate subjects to qualify as an acceptable form of proof of high school graduation)

Expected Timeline of Completion	11 years (three years or six semesters from the initial start of year nine)

Important Information:

- Most schools within Israel operate on the Hebrew calendar instead of the common Gregorian calendar that is typical in the U.S. There are many online tools available to convert the calendar dates. This may be required to identify accurate school years for the student.

Example: Tishrei 12, 5777* (Hebrew calendar) is Friday, October 14, 2016 on the Gregorian calendar.

Acceptable Forms of Proof of High School Graduation:

This section is divided into two “tiers.” All tiers are acceptable forms of proof of graduation. Each tier has a separate expected timeline for completion. Each tier builds upon the previous tier.

Tier One

1. Caribbean Examination Council (CXC) Secondary Education Certificate (CSEC) (must pass **five** or more examinations in separate subjects to qualify as an acceptable form of proof of high school graduation)

Expected Timeline of Completion	11 years (three years or six semesters from the initial start of year nine)
Issuing Body	Caribbean Examination Council (CXC)

2. General Certificate of Secondary Education (GCSE) (must pass **five** or more examinations in separate subjects to qualify as an acceptable form of proof of high school graduation)

Expected Timeline of Completion	11 years (three years or six semesters from the initial start of year nine)
Issuing Body	Various exam boards

3. General Certificate of Education (GCE) (must pass **five** or more examinations in separate subjects to qualify as an acceptable form of proof of high school graduation)

New Zealand

Background:

Academic Calendar	<i>February-December</i>
What is year nine called?	<i>Year 9</i>
Where is year nine typically located?	<i>First year of upper secondary school</i>
Native Language(s)	<i>English</i>
Graduation Timeline	
$6 + 2 + 3 = 11$ or $6 + 2 + 4 = 12$ or $6 + 2 + 5 = 13$	<i>11, 12 or 13 years total: timelines vary, see various timelines below</i>

Acceptable Forms of Proof of High School Graduation:

*This section is divided into three "tiers." All tiers are acceptable forms of proof of high school graduation. Each tier has a separate expected timeline for completion. Each tier builds upon the previous tier. Most students may complete only Tier Two and Tier Three listed below.

Tier One

1. International General Certificate of Secondary Education (IGCSE) (must pass **five** or more IGCSE examinations in separate subjects to qualify as an acceptable form of proof of high school graduation)

Expected Timeline of Completion	11 years (three years or six semesters from the initial start of year nine)
Issuing Body	Various examination boards
First Available Date of Issue (typical)	August

Tier Two

*The expected timeline for completion of all tier two acceptable forms of proof of high school graduation is upon successful on-time completion of year 12. Earning a Tier Two acceptable form of proof of high school graduation will advance the expected date of high school graduation one year from the on-time expected timeline of a Tier One document.

1. National Certificate of Educational Achievement (NCEA) Level 2 (either in the form of a Certificate or a Record of Achievement showing Level 2 achieved, under the 'Qualification and Achievement Summary' section)

Expected Timeline of Completion	12 years (Four years or eight semesters from the initial start of year nine)
Issuing Body	New Zealand Qualifications Authority
First Available Date of Issue (typical)	January

Tier Three

*The expected timeline for completion of all tier three acceptable forms of proof of high school graduation is upon successful on-time completion of year 13. Earning a Tier Three acceptable form of proof of high school graduation will advance the expected date of high school graduation one year from the on-time expected timeline of a Tier Two document, or two years beyond the on-time completion of a Tier One document.

3. National Certificate of Educational Achievement (NCEA) Level 3 (either in the form of a Certificate or a Record of Achievement showing Level 3 achieved, under the 'Qualification and Achievement Summary' section)

Expected Timeline of Completion	13 years (Five years or 10 semesters from the initial start of year nine)
Issuing Body	New Zealand Qualifications Authority
First Available Date of Issue (typical)	January

NOT Acceptable Forms of Proof of High School Graduation:

1. National Certificate of Educational Achievement (NCEA) Level 1

Important Information:

- *Converting grades out of a value other than 100:* Grades are often issued with a “Minimum and Maximum Mark” for the class, followed by the “Student’s Mark” (the grade the student earned in the class). The grading scale above would apply to courses with a Maximum Mark of 100. For courses out of any other amount, the Student’s Mark should be divided by the Maximum Mark in order to convert the grade to a 100-point grade. For example, a “Student Mark” of a 40 for a course with a Maximum Mark of 50 would be an 80 on the scale above.

Graduation Timeline	
11, 12 or 13	<i>11, 12 or 13 (see document timelines, below)</i>

Acceptable Forms of Proof of High School Graduation:

This section is divided into three “tiers.” All tiers are acceptable forms of proof of graduation. Each tier has a separate expected timeline for completion. Each tier builds upon the previous tier.

Tier One

- Issued prior to August 2015:** Scottish Qualifications Certificate (SQC) and Summary of Attainment from the Scottish Qualifications Authority – ‘Standard Level’ examinations (*must pass **five** or more Standard Level examinations in separate subjects, at Level Four or higher, to qualify as an acceptable form of proof of high school graduation*).

Expected Timeline of Completion	11 years (three years or six semesters from the initial start of year nine)
Issuing Body	Scottish Qualifications Authority
First Available Date of Issue (typical)	August

- Issued August 2015 and beyond:** Scottish Qualifications Certificate (SQC) and Summary of Attainment from the Scottish Qualifications Authority – ‘National 5’ examinations (*must pass **five** or more National 5 examinations in separate subjects to qualify as an acceptable form of proof of high school graduation*).

Expected Timeline of Completion	11 years (three years or six semesters from the initial start of year nine)
Issuing Body	Scottish Qualifications Authority
First Available Date of Issue (typical)	August

Tier Two

The expected timeline for completion of all Tier Two forms of proof of acceptable high school graduation is upon successful on time completion of year 12. Earning a Tier Two form of proof of high school graduation will advance the expected date of high school graduation one year from the on-time expected timeline of a Tier One document.

- Issued prior to August 2015:** Scottish Qualifications Certificate (SQC) and Summary of Attainment from the Scottish Qualifications Authority – ‘Intermediate 1/Intermediate 2’ Level examinations (*must pass **two** or more Intermediate 1 /Intermediate 2-level examinations in separate subjects to qualify as an acceptable form of proof of high school graduation*).

Expected Timeline of Completion	12 years (four years or eight semesters from the initial start of year nine)
Issuing Body	Scottish Qualifications Authority
First Available Date of Issue (typical)	August

2. **Issued August 2015 and beyond:** Scottish Qualifications Certificate (SQC) and Summary of Attainment from the Scottish Qualifications Authority – ‘Higher-level examinations’ (*must pass **two** or more Higher-level examinations in separate subjects to qualify as an acceptable form of proof of high school graduation—verbally referred to as “Highers”*).

Expected Timeline of Completion	12 years (four years or eight semesters from the initial start of year nine)
Issuing Body	Scottish Qualifications Authority
First Available Date of Issue (typical)	August

Tier Three

The expected timeline for completion of all Tier Three forms of proof of acceptable high school graduation is upon successful on time completion of year 13. Earning a Tier Three form of proof of high school graduation will advance the expected date of high school graduation one year from the on time expected timeline of a Tier Two document or two years beyond the on-time completion of a Tier One document.

1. **Issued prior to August 2015:** Scottish Qualifications Certificate (SQC) and Summary of Attainment from the Scottish Qualifications Authority – ‘Higher/Advanced Higher level’ examinations (*must pass **two** or more Higher/Advanced Higher-level examinations in separate subjects to qualify as an acceptable form of proof of high school graduation*).

Expected Timeline of Completion	13 years (five years or 10 semesters from the initial start of year nine)
Issuing Body	Scottish Qualifications Authority
First Available Date of Issue (typical)	August

2. **Issued August 2015 and beyond:** Scottish Qualifications Certificate (SQC) and Summary of Attainment from the Scottish Qualifications Authority – ‘Advanced Higher level’ examinations (*must pass **two** or more Advanced Higher-level examinations in separate subjects to qualify as an acceptable form of proof of high school graduation*).

Expected Timeline of Completion	13 years (five years or 10 semesters from the initial start of year nine)
Issuing Body	Scottish Qualifications Authority
First Available Date of Issue (typical)	August

NOT Acceptable Forms of Proof of High School Graduation:

1. Scottish Qualifications Authority (SQA) National 4 Examinations
2. Scottish Vocational Qualifications (SVQ) Levels 1, 2 and 3
3. Scottish Vocational Education Council’s (SCOTVEC) National Diploma Program

*In these cases, students can leave the lower secondary level one year earlier to enter the upper academic secondary level (e.g., in the case of Zürich, 6 + 2 + 4). Basel-Stadt allows the transition two years earlier, and both Neuchatel and Vaud allow it three years earlier. However, in the following cantons, students can postpone transition until the end of year nine if they do not feel ready to enter the upper secondary level after year eight: St. Gallen, Schaffhausen, Schwyz and Thurgau.

Preprimary education is provided by Kindergarten/Écoles Infantines/Case dei Bambini in all the Swiss cantons; attendance is not compulsory, but most children attend them.
